**SUBJECT: Analysis of Communist Propaganda**

1. Attached hereto is an intelligence report on the above subject.

- a. Have you seen this before?
- b. If so, did you read it? Did you use it?
- c. Is this available in New Delhi? Would the officers there find it useful?
- d. Would USIS officers in India be able to contribute biographic notes on personalities listed in this publication simply by reference to their own experience? Would they be able to collect and report information on these personalities if they knew such data were desired?
- e. Referring to the table of contents, would it be your opinion that there should be an NIS chapter on Communism in Italy which would be substantially the sort of thing found under I and II and materials in the appendices and lists of tables.
- f. Would it be helpful if the types of things in Section II were published as separate memoranda on a quarterly basis?
